### Branch Medical Clinic Kinser is Relocating

*By Mr. Joseph Andes, USNH Okinawa Public Affairs Officer*

**CAMP FOSTER** - United States Naval Hospital Okinawa, Japan has announced that Branch Medical Clinic Kinser will temporarily relocate as a major upgrade project begins at the facility. This includes upgrading to state of the art medical equipment and facilities systems to enhance the patient experience and expand treatment options. In order for the work to take place, Branch Medical Clinic Kinser will temporarily relocate services to Building 1460T, located directly behind the clinic's current location.

The move to the temporary facility takes place April 8. On that day, the clinic will be offering acute care appointments only.

Parking for Branch Medical Clinic Kinser will move to the front of Building 1460T during the relocation. Patient services, hours of operation and clinic phone numbers will remain unchanged. The level of services and the scope of care normally available at Branch Medical Clinic Kinser will not be affected by the temporary location.

Clinic service is expected to resume at the original Branch Medical Clinic Kinser location upon completion of the renovation work, tentatively in the first quarter of 2017.
